

LOGUS - de Hoop Marathon Zeeuws-Vlaanderen 2017

Terneuzen - - - > Hulst

The 9th edition of Logus - De Hoop Marathon Zeeuws-Vlaanderen will take place on Saturday April 15th, starting in Terneuzen and finishing in Hulst. The Zeeuws-Vlaanderen marathon is a wonderful, beautiful, natural and safe marathon on the border between the Netherlands and Flanders (Belgium).

Route description:

The marathon route changes every year. This year the start is situated at the marketplace of Terneuzen and the finish line at the central market place in the center of Hulst. The participants will alternately run through forests, over shell paths and dikes as well as along forts and water.

The first part of the trail runs along the beautiful Westerschelde boulevard with a fantastic view of the shipping route between the North Sea and Antwerp. After this part you will pass several little villages, but also running over shell paths and grass paths. Nearly a third of the trail takes place on unpaved roads and paths through beautiful natural areas of the Flemish part of Zeeland. The last kilometres run through the woods of Sint-Jansteen and Clinge. The last part of the trail runs along the fortification of the historic town of Hulst.

In addition to the individual marathon, a very popular relay marathon (with up to four runners per team) is also organised. The relay marathon will be run on the same route as the individual marathon. Switches will take place at fixed exchange points set by the organization.

There are also two other races: a 5 km and a 10 km race with the start and finish line in the center of Hulst, where the finish line of the marathon is also situated. There is a joint starting point. The route will include the last kilometres of the marathon route. There is a youth run for youngsters aged 12 and younger in both Hulst and Terneuzen (before the start of the marathon and prior to the start of the 5 and 10 km races): the Kika Kidsrun. This race is about 1000 metres long.
